

## **RISK WARNING CONFIRMATION**

I agree and confirm that I have decided to open an account through the Eurivex web link (<https://trade.eurivex.com/login>) based on my own research and shall not hold Eurivex Ltd, its Directors and staff, jointly or individually, responsible for the use of investment services in any financial instruments available for investment through the Eurivex platform. I confirm that Eurivex has not provided me with any investment advice or solicited for the provision of any of its services.

I understand that investing in any form of financial instrument, as well as through crowdfunding projects, entails risks, including the risk of partial or entire loss of the money invested.

I also acknowledge understanding that for crowdfunding projects, my investment is not covered by the deposit guarantee schemes established in accordance with Directive 2014/49/EU of the European Parliament and of the Council, nor is my investment covered by the Investor Compensation schemes established in accordance with Directive 97/9/EC of the European Parliament and of the Council. I may not receive any return on my investment. This is not a savings product and I have been advised not to invest more than 10 % of my net worth in crowdfunding projects. I may not be able to sell the investment instruments when I wish. If I am able to sell them, I may nonetheless incur losses.

Crowdfunding offers have been neither verified nor approved by the Cyprus Securities & Exchange Commission or the European Securities and Markets Authority (ESMA). The appropriateness of your experience and knowledge have not necessarily been assessed before you were granted access to investments.

If you are a retail investor you may receive protection under the Investor Compensation Fund for an amount of up to EUR 20,000. More details can be found on a separate document provided by Eurivex titled Investor Compensation Fund and available as a download on the Company's official website.

I agree and confirm that I have made my own research and/or relied on independent advice from professionals not related to Eurivex Ltd in deciding to invest in financial instruments, such as shares and bonds of various companies that are available for investment through the Eurivex platform.
